

pre- and post-assistance arrears starting in 1999, and the new requirement for pre-assistance arrears will apply to families that begin to receive public assistance in 1999 or thereafter.

Many states already pay post-assistance arrears to families. CBO assumes these states would not exercise the option provided by section 5532 because they would incur costs for earlier payment of pre-assistance arrears but no offsetting savings on payments of post-assistance arrears. This estimate assumes that about half of the remaining states, accounting for 25 percent of child support collections, will exercise the option provided by this act. If more states choose to exercise the option, then savings would be greater.

The provision creates federal savings in 1998 because states will not be required to give post-assistance arrears to families in that year and can instead keep the collections to reimburse themselves and the federal government. CBO estimates that the federal government will receive an additional \$11 million in child support collections in 1998. Some families who are affected by the new distribution rules receive food

stamps. In 1998, those families will qualify for an extra \$3 million in Food Stamp benefits because their child support income will be lower.

Giving pre-assistance arrears to families beginning in 1999 instead of 2001 will create federal costs in 1999 and 2000, estimated at \$2 million and \$4 million (net of Food Stamp savings) respectively. Finally, the new rules will apply to families who begin to receive assistance after 1998 instead of 1997. This creates small savings, \$1 million a year, in 2001 and thereafter.

Timing of Supplemental Security Income Payments. Because of calendar quirks, the SSI program may pay 11, 12, or 13 months of benefits in a fiscal year. The normal payment date is the first of the month, but if that day is a weekend or holiday, the benefit is paid instead on the previous business day. That practice leads to the issuance of 13 benefit checks in fiscal year 2000 and 11 in 2001. This law changes the payment date for the October 2000 check from September 29 (a Friday) to October 2 (a Monday). As a result, outlays of \$2.6 billion will shift from fiscal year 2000 to 2001.

¶ 45,600 Drug Lists for Establishing Upper Limits on Payments.

State Medicaid Manual, HCFA Pub. 45-6, Transmittal No. 34, July 1, 1997.

Medicaid: Drug Reimbursement

Medicaid payments—Requirements for state plans—Reimbursement in general—Drug-payment limits.—The *State Medicaid Manual* has been revised to update the list of multiple source drugs used by states to determine the upper limits for Medicaid reimbursement for prescription drugs.

See ¶ 14,723.29.

The prior drug list appears at 1997-1 Transfer Binder ¶ 44,925.

[Text of Transmittal]

CHANGED IMPLEMENTING INSTRUCTIONS—EFFECTIVE DATE: October 1, 1997

Addendum A updates ingredient prices used by States to establish upper limits for prescription drugs under 42 CFR 447.332 and § 1927(e) of the Social Security Act.

DISCLAIMER: The revision date and transmittal number only apply to the red-lined material. All other material was previously published in the manual and is only being reprinted.

Addendum A.—The following listing of multiple source drugs meets the criteria set forth in 42 CFR 447.332 and § 1927(e) of the Act, as amended by OBRA 1993. The development of the current Federal Upper Limit (FUL) listing has been accomplished by computer. Payments for multiple source drugs identified and listed in the accompanying addendum must not exceed,

in the aggregate, payment levels determined by applying to each drug entity a reasonable dispensing fee (established by the State and specified in the State plan), plus an amount based on the limit per unit which HCFA has determined to be equal to a 150 percent applied to the lowest price listed (in package sizes of 100 units, unless otherwise noted) in any of the published compendia of cost information of drugs. The listing is based on data current as of June 1997 from the First Data Bank (Blue Book), MediSpan, and the Red Book. Addendum A does not reference the commonly known brand names. However, the brand names are included in the FUL listing provided to the State agencies in electronic media format. The FUL price list is updated approximately every 6 months. This listing is now available on the HCFA home page at <http://www.hcfa.gov/medicaid/drughmpg.htm>.

In accordance with current policy, Federal financial participation will not be provided for

973 9-11-97

New Developments

55,127

any drug on the FUL listing for which the FDA has issued a notice of an opportunity for a hearing as a result of the Drug Efficacy Study and Implementation (DESI) program and which has been found to be a less than effective or is identical, related, or similar (IRS) to the DESI

drug. The DESI drug is identified by the Food and Drug Administration or reported by the drug manufacturer for purposes of the Medicaid drug rebate program.

The effective date of this list is October 1, 1997.

[¶ 45,601] Medicare HMOs Organized as "Open Access" Physician Panels.

HCFA Office of Managed Care, Operational Policy Letter No. 50, OPL050, March 19, 1997.

Medicare: Prior Authorization

Health maintenance organizations—Arrangements for health services—Accessibility of services.—Medicare health maintenance organizations and competitive medical plans may be organized as "open access" model managed care organizations as long as all statutory and regulatory requirements for continuity of care and utilization management are met. Under the open access model, enrollees are allowed access to any physician on an HMO's Medicare-contracted panel

Medicare and Medicaid Guide
